PROJECTS

AI-Assisted Barangay Service Request System Oct 2026

- Web system where residents submit and track requests and staff manage them in one dashboard (login, CRUD, search, filters)
- Keyword-based auto-categorization and "most reported concern" insights; Row Level Security protects each user's data
- HTML, JavaScript, Bootstrap, Supabase (PostgreSQL); deployed on GitHub Pages

Barangay Service Request Analysis Oct 2026

- Analyzed 217 sample requests in Google Sheets and SQL with matching results; found garbage concerns made up 29% of requests and volume rose 44% in the rainy season

IT Help Desk Knowledge Base Oct 2026

- Self-help site with 8 troubleshooting guides (problem, causes, diagnosis, solution, prevention), keyword search, and filters

IoT-Based Smart Motorcycle Safety and Security System · Capstone Project (Group)
